PROFESSIONAL SUMMARY

Results-driven Backend Developer with 1+ year of production experience designing scalable RESTful APIs, event-driven microservices, and real-time data pipelines using Node.js, NestJS, Kafka, and PostgreSQL. Improved system performance by up to 25% through query optimisation and caching. Adept at owning features end-to-end — schema design, payment-gateway integration, and observability — in fast-paced product startup environments. Strong communicator with a collaborative mindset and a track record of on-time delivery.

KEY SKILLS

- **Languages & Frameworks:** JavaScript (ES6+), TypeScript, Node.js, NestJS, Express.js, React
- **Databases & Caching:** PostgreSQL, MySQL, Redis
- **Messaging & Streaming:** Apache Kafka, RabbitMQ
- **APIs & Integrations:** REST APIs, JWT Authentication, Webhooks, WebSockets, Razorpay, Stripe
- **DevOps & Tools:** Git, Docker (Basics), AWS EC2, Postman, Swagger, TypeORM, Bull Queue
- **Soft Skills:** Team Collaboration, Agile/Scrum, Communication, Adaptability, Continuous Learning

EXPERIENCE

Junior Backend Developer **CraftNotion, Hyderabad** **Jan 2025 – Dec 2025**

- Architected and delivered RESTful APIs using NestJS and TypeORM as a core backend contributor across 5+ sprint cycles.
- Optimised critical SQL queries, **reducing average API response time by 15%** and improving system throughput.
- Engineered a Kafka-based event pipeline for continuous client location tracking with **near-real-time updates** at scale.
- Built a bulk-upload microservice (CSV/Word parsing via BeautifulSoup in Python), eliminating manual data-entry and cutting question-bank import time by over 80%.
- Deployed Redis-based caching and API monitoring, measurably improving uptime across high-traffic endpoints.
- Integrated Razorpay and Stripe payment gateways with secure webhook handling, enabling end-to-end payment processing.
- Conducted code reviews and contributed to agile sprint planning, improving team delivery velocity.
- **Promoted to Junior Backend Developer** within the internship period based on consistent performance and ownership.

Technical Sales Engineer Intern **Whitestack Solutions, Hyderabad** **Sep 2024 – Dec 2024**

- Developed a full-stack demo application (React + Express.js) that accelerated client onboarding with a live product walkthrough.
- Collaborated cross-functionally with engineering and client-facing teams to prepare and deliver technical demos.
- Authored and maintained API documentation, reducing developer onboarding time for internal and external stakeholders.

PROJECTS

Memrise — AI Context Management Platform **Jan 2026 – Mar 2026**

- Built a full-stack RAG system in NestJS that stores and retrieves past AI conversations, enabling users to inject relevant context into new ChatGPT and Claude sessions via a Chrome extension.
- Designed a semantic search pipeline using Xenova sentence embeddings (384-dim) and Qdrant vector database, scoped per-user and per-profile to return the top-k most relevant past messages.
- Decoupled embedding generation from the request lifecycle using Bull Queue, preventing latency spikes on context ingestion.
- Integrated OpenAI (gpt-4o-mini) to summarize retrieved conversation groups into concise, injectable context snippets presented to the user before injection.
- Built a Chrome extension with real-time DOM observation to capture messages across multiple AI platforms and sync them to the backend automatically.
- GitHub: github.com/Myselfkc21/memrise

Hacker News AI Scraper **Nov 2023 – Jan 2024**

- Built a real-time web dashboard (React + Express.js + Socket.IO) with live Hacker News feeds, dynamic filtering, and sorting.
- Integrated OpenAI API to auto-generate concise story summaries, reducing user reading time and surfacing insights instantly.
- GitHub: github.com/Myselfkc21/Web_Scraper

EDUCATION

B.Tech in Computer Science and Engineering **2021 – 2025**

Sreenidhi Institute of Science and Technology, Hyderabad
CGPA: 7.8 / 10.0

LEADERSHIP & ACTIVITIES

- **Club Coordinator, Tech Vision** – spearheaded hackathons and technical sessions for **100+ participants**.
- Karate Brown Belt (2nd Level) | Self-learning Acoustic Guitar
